

Calcium Aluminate Cements

Edited by
R.J. MANGABHAI

E. & F.N. SPON

CALCIUM ALUMINATE CEMENTS

Proceedings of the International Symposium
Held at Queen Mary and Westfield College,
University of London, 9-11 July 1990, and
dedicated to the late Dr H. G. Midgley

Edited by

R J Mangabhai

CONTENTS

Preface

Dr H. G. Midgley's papers on calcium aluminate cements

List of abbreviations

1 High alumina cement in construction – a future based on experience

H. G. MIDGLEY

PART ONE CLINKER

2 Effect of morphology on the hydration characteristics of high alumina cements

I.N. CHAKRABORTY, S. NARAYANAN, D. VENKATESWARAN, S.K. BISWAS,
A.K CHATTERJEE

3 High alumina cements based on calcium aluminate clinker with different phase compositions and sintering degrees

J. SAWKOW

PART TWO HYDRATION

4 Microstructural development in pastes of a calcium aluminate cement

K. L. SCRIVENER, H.F.TAYLOR

5 Investigations of the composition of phases formed in low cement castables during hydration and after thermal treatment

W. GESSNER, S. MÖHMEL, J. KIESER, M. HÄWECKER

6 Effect of temperature on setting time of calcium aluminate cements

A. CAPMAS, D. SORRENTINO, D. DAMIDOT

7 The use of nuclear magnetic resonance (NMR) in the study of high alumina cement hydration

D. J. GREENSLADE, D. J. WILLIAMSON

- 8 On the change of microstructure during the hydration of monocalcium aluminate at 20° and 50°C**

W. GESSNER, R. TRETTIN, A. RETTEL, D. MÜLLER

PART THREE ADMIXTURES

- 9 The influence of superplasticising admixtures on ciment fondu mortars**

S. M. GILL, P. F. G. BANFILL, B. EL-JAZAIRI

- 10 The effect of admixtures on the hydration of refractory calcium aluminate cements**

J. H. SHARP, S. M. BUSHNELL-WATSON, D.R. PAYNE, P.A. WARD

- 11 Properties of fresh mortars made with high alumina cement and admixtures for marine environment**

N. C. BAKER, P.F.G.BANFILL

PART FOUR CALORIMETRY

- 12 Role of foreign cations in solution on the hydration of alumina cement**

M. MURAT, EL.H. SADOK

- 13 Calorimetric studies on high alumina cement in presence of chloride, sulphate and seawater solutions**

D. L. GRIFFITHS, A. N. F. AL-QASER, R. J. MANGABHAI

PART FIVE DURABILITY

- 14 Manufacture and performance of aluminous cements - a new perspective**

C. M. GEORGE

- 15 Long-term performance of high alumina cement concrete in sulphate-bearing environments**

N. J. CRAMMOND

- 16 Behaviour of high alumina cement in chloride solutions**

W. KURDOWSKI, L. TACZUK, B. TRYBALSKA

17 Acidic corrosion of high alumina cement

J-P BAYOUX, J-P LETOURNEUX, S. MARCDARGENT, M. VERSCHAEVE

18 The effect of limestone fillers on sulphate resistance of high alumina cement composites

W. G PIASTA

PART SIX BLENDED SYSTEMS

19 Hydration of calcium aluminates in presence of granulated blastfurnace slag

A. J. MAJUMDAR, R.N. EDMONDS, B. SINGH

20 The effect of curing conditions on the hydration and strength development in fondu : slag

C. H. FENTIMAN, S. RASHID, J-P BAYOUX, A. BONIN, M. TESTUD

21 The microstructure of blast furnace slag/high alumina cement pastes

I. G. RICHARDSON, G. W. GROVES

22 Effect of microsilica on conversion of high alumina cement

S. BENTSEN, A. SELTVEIT, B. SANDBERG

23 Study of hydration properties of aluminous cement and calcium phosphate mixes

J-P BAYOUX, A. BONIN, S. MARCDARGENT, A. MATHIEU, M. VERSCHAEVE

24 Ettringite-based cements

S. BROOKS, J. H. SHARP

PART SEVEN MISCELLANEOUS

25 Effect of autoclaving on the strength of hardened calcium aluminate cements

R. BAGGOTT, A SARANDILY

26 Effect of temperature rise on properties of high alumina cement grout

S. A. JEFFERIS, R. J. MANGABHAI

27 Activation of hydraulic properties of the compound $\text{CaO} \cdot 2\text{Al}_2\text{O}_3$

T. W. SONG. S.H. CHOI, K. S. HAN
